

Conversations That Matter

The Intersection of Racial Justice and Life Issues

Questions for Reflection and Discussion:

1. Can I distinguish the generic sins of xenophobia and racism from the specific and historical form they take in Anti-Black white supremacy?
2. What do I know about the enslavement of the Indigenous people of the Americas, the Trans-Atlantic Slave Trade and Chattel Slavery, and Jim Crow; what sources and texts have I consulted?
3. How might people and communities of color understand their own ethnic experiences of oppression through the lens of Anti-Black white supremacy?
4. How can we restore our civic soul through a sad and sorrowful education?
5. What specific essay or book will I take and read now?
