

Billing Options

Through partnership with Notre Dame's McGrath Institute's online course, your diocese, school, or other organization can select custom billing options for course enrollments. Below are common billing options. We can also custom create an option to fit your requirements.

1. All partner enrollments receive a discount off the course enrollment fee. These discounts are applied in the checkout process using a promo code provided to the diocese and listed on the McGrath website, on the Current Partners web page.
2. Invoice diocese for all enrollments. A unique promo code for billing can be created and used when individuals register for courses. Once courses begin, we will send an invoice for payment to the diocese or organization.
3. Split invoicing for all enrollments. A unique promo code provides dioceses the ability to pay a portion of the enrollment fee and require participants to pay a portion of the enrollment themselves.
4. Custom options available upon request.

Questions regarding billing and enrollments can be directed to stepnd@nd.edu.
